Miss Florence Hornsby was assaulted and murdered near Columbia last Saturday afternoon by an unknown party. She had gone to a spring about two hundred yards from the house. When found her dead body was lying face upwards in the grass a few yards from the spring with her throat cut from ear to ear. The clothing was disarranged, and there was evidence that a nameless crime had been attempted. He testified that he came across the body as another negro ran from the scene. The coroner was induced to suspect Haynes on account of the apparent coincidence of his small shoe tracks with those of the murderer. Haynes was taken to the scene and his feet placed in the tracks, and his shoes fit exactly, even to the running down of his heels. Woolfelk's Dying Declaration.

ATLANTA, GA., November 8 .-Judge John D. Cunningham, of the Atlanta bar, in speaking of Woolfolk's dying declaration, is quoted as saying: "I do not think there is any reasonable doubt of his guilt, and do not believe his dying statement. My experience as a Judge has satisfied my mind that ordinarily a man who will tell a lie when he is living will tell a lie when he is dying. #### A Queer People.

ORVILLE, OHIO, November 1.-Congressman S. S. Yoder, who has been speaking in behalf of Mr. Warwick, Major McKinley's opponent in the race for Congress, and who is taking a particular interest in this contest, has given the World correspondent a more detailed and interesting account of the remarkable Ammish people than could be obtained from any other source. His mother was an Ammish woman and died strong in the faith. His father was of the same sect from which he separated. Their son never adopted Ammish ways of thinking or living.

"The followers of Jacob Amma," said Mr. Yoder, "are losing much of their original quaintness, outwardly expressed by their singular garment and refusal to wear buttons. They came from Switzerland and Germany, settled in Pennsylvania and scattered from there, the greatest number now being in Ohio. They believe that they should have nothing to do with the world at large. They marry and intermarry, and the marriage of an Ammish man or woman by expulsion. Expulsion is punishment more severe than the courts God, he's dead at last." ers and 14,114 members. The following could administer, as a person expelled is ostracised from his people in every sense. They will not eat from a plate used by a member so banished.

"No Ammish man or woman ever went to the poorhouse, for they help each other in distress. They are opposed to education beyond knowledge of reading and writing. The washing of feet is one of their cardinal doctrines. They select one from their number for a preacher in every community by casting lots. Their wool goes to old Peter Wise's woollen factory, and is there made up into ready made clothing such as they wear. Drunkenness, swearing, litigation, even the pursuit of horse thieves is forbidden among them. The original Ammish would not vote at all, for they believed in absolute exclusion. Nowadays most of them vote, and nine out of every ten vote the Democratic ticket.

"Though modest, virtuous and strict upholders of the moral code, their courtship is very peculiar. The lover waits until the family—the lear one included-have retired. He then removes his shoes, quietly enters the house, slips to her room, confesses his devotion in the solitude of her apartment, and is made happy or miserable, as the case may be. In lue season banns are published in the church, and the whole neighorhood comes to the wedding, drink-ing wine moderately and playing strange kissing games until a late
